

EISSS QUALITY POLICY

EISSS vision is to be the leading solution provider in delivering quality and innovative product and services that will enable industries to optimize plant efficiency and operation to meet challenge on resource insufficiency and conservation, and environment protection.

EISSS mission is to provide solution to support the rising needs for technical competency and high-end services in the power sector. We shall bring-in both proven and innovative technology and processes to improve current operational conditions of the industry that we serve. Our products will be human centered to allow collaboration between human workforce and technology to bring about optimum level of achievement among our customers.

In the midst of high technology proliferation, we aim to recognize the human element and bring back the trust and confidence on the human side of engineering.

EISSS vision & mission is centered in providing quality services. Quality services can only be attained through implementation of Quality Management System. EISSS is committed in meeting legal, regulatory, statutory and contractual requirements and continually improve the effectiveness of the Quality Management System in all our operations including sales, project engineering and execution, and after sales service. EISSS Management shall ensure that EISSS as a whole abides with the quality management system. In line with EISSS Quality Policy, operation activities are guided by the following quality principles:

- The quality of our products and services is the key to our company's success.
- Quality objective is management objective.
- Quality objectives are established, monitored, reviewed and acted upon.
- Quality must be managed in every stage of our work process.
- Quality assurance is everyone's responsibility and cannot be delegated.
- Quality improvement is the result of skillful and dedicated employees.

This Quality Policy will be reviewed regularly and communicated to all relevant interested parties using the appropriate methods.
